

SD05 Meeting Minutes 01

Meeting : Capstone Computing Project 3rd Year Semester 2
Group Name : SD05 (CCPE_001)
Date : 15th August 2017
Venue : SLIIT Premises 509 lecture hall
Start Time : 3.00 pm
End Time : 4.15 pm

Attendees

Client : Mr. Thilina Halloluwa (UCSC)

Group Members:

S.G.T. Kumarasinghe	- 19200174
R.M.S. Rathnayake	- 19206538
K.H. Perera	- 19211053
G.B. Rajaguru	- 19190026

Meeting Objectives : Discussion of the progress of Android Application - Financial Planner for family.

Discussion: Current Status of the Financial Planner Android application and tasks planned for the sprints.

- Mr. Thilina Halloluwa Suggested to focus more to make primary language sinhala and add a savings account feature.
- He also suggested to add a Bill scanner which can scan specific fields of the bill and retrieve their values.(The bill can be stored in database for further reference if user wants)
- He gave us some points and where to apply them in order to improve the application so it can be used by users with less android experience

Targets/Actions/Plan Agreed:

- Use Bitbucket as the repository instead of Github.
- Search information about expenses forecasting algorithms.
- Making the application design and interaction simple so even a less experienced user can manage the application.

Date for Next Meeting:

- Last week of August, date and time will be scheduled according to the client's availability.
